

Windows 8.1 - Enable/Disable System Restore

June 2014

Windows 8.1 - Enable/Disable System Restore

To enable or disable the System restore feature of Windows 8, follow the below procedure:

 Move the cursor to the bottom right corner of your screen to display the "Charm Bar" and choose "Settings" (or press the Windows key + C).

• Then choose "*PC info*" > "*System Protection*".

- Click on "Configure".
- To disable System Restore: select "Disable system protection" and then click on "Apply".

• To enable System Restore: select "Turn on system protection" and then click on "Apply".
